

Conor Smyth

Senior frontend engineer with five years experience

Email: conorsmyth12@gmail.com // Phone: +353 89 489 2415

EXPERIENCE

Toast, Dublin, Ireland — Senior Software Engineer

May 2021 - September 2023

Frontend software engineer on Toast's external developer portal, an express application using React SPA methodologies, connecting to the backend through a GraphQL interface in a schema-first manner. Led the design and frontend implementation for this project. Also built out multiple internal tool interfaces to support Toast admin users onboarding partners and allowing them to access Toast APIs.

Fidelity Investments, Dublin, Ireland — Software Engineer

January 2019 - May 2021

Full stack software engineer on Fidelity's international pension platform. Worked with an Angular 2+ single page architecture making use of Angular Libraries to build reusable components for each market that Fidelity operates in. Also experience building Restful services using Java, Spring, and Apache Camel. Heavily involved in Fidelity's "Culture Crew" (sports & social) organising social events for Fidelity employees.

McDonalds, Dublin, Ireland — Shift Manager

July 2013 - December 2018

EDUCATION

Dublin City University, Dublin, Ireland — BSc Computer Applications and Software Engineering

2014 - 2018

A four year course including a 6 month internship (at Verizon Media, formerly Oath/AOL).

VOLUNTEERING

Barretstown — A Serious Fun camp, Ireland

Volunteered monthly spending a weekend at camp, assisting with the running of activities and entertaining children and parents alike.
